During these meetings, the CSBG Program Manager specifically asked for feedback and input on current CSBG policies and procedures including organizational standards implementation, monitoring procedures, procedures for awarding discretionary funding, ROMA system implementation, and the provision of training and technical assistance among other topics. The state association worked with the state office to ensure that eligible entities were being heard and that the state is responsive to the concerns and needs of the eligible entities. Prior to completion of the State Plan, the state office asked all CEE executive directors if anyone had specific requests or suggestions for changes to CSBG policy or the proposed plan for FY 2026 and 2027. The State office will continue to meet with CEE Executive directors quarterly for regular CSBG Updates, as well as continue participation in as many bi-weekly state association calls as possible.

These meetings allow for ongoing and in depth discussion on each CSBG topic addressed through the plan. **6.3a. Assessment Process:** Describe the planned assessment process.

The State's Organizational Standards review process includes review of the Organizational Standards as part of biannual comprehensive CSBG monitoring. The State will report to OCS on the standards annually in the CSBG Annual Report . Eligible entities will maintain electronic documentation of compliance with the standards in the state's data management system. The State will conduct a comprehensive desk review of the organizational standards and provide feedback within the data management system and within monitoring reports, which may result in the requirement of a Technical Assistance Plan (TAP) or a Quality Improvement Plan (QIP). The State will work with the WV Community Action Partnership, Inc. to develop timely and effective training to address common training needs among all eligible entities. The State is responsible for working with eligible entities to meet all organizational standards. Some standards may take several years to be met depending on the frequency at which the task occurs. Within the last two years, the state has continued established procedures for how CEEs maintain and renew assessments of the Organizational Standards. Within the state's data management system, CEEs will only reassess whether or not a standard has been met depending on the frequency at which each particular standard is required to occur. For instance, standard 7.1 requires that the the "organization has written personnel policies that have been reviewed by an attorney and approved by the governing board within the past 5 years." CEEs must enter the expiration date for each specific standard. Since this documentation is only required to be updated every 5 years, the state will only assess once within that time period. The system will notify the CEE prior to the expiration of each standard, at which point, the CEE will archive the record and provide updated documentation, a new expiration date, and the state will then review it during the next scheduled monitoring. The goal is to maintain compliance with the Organizational Standards, and simplify the validation process

performed by the State.

**7.1a. Formula Description: Describe the current practice for allocating CSBG funds to eligible entities.**

The state updates the formula as poverty statistics become available. This may or may not cause significant changes to allocations depending on the number of individuals under 125% of the FPL in the designated service area.

**7.3. Distribution Process:**

**Describe the specific steps in the state's process for distributing 90 percent funds to the eligible entities and include the number of days each step is expected to take; include information about state legislative approval or other types of administrative approval (such as approval by a board or commission).**

Ninety percent (90%) of the CSBG funds allotted to the State will be allocated to CSBG eligible entities based on the established formula. CEEs will have 30 days to complete and submit their application. The State will then review applications for completeness within 30 days. Once an application is approved, the State will issue a Grant Agreement and award notification to the CEE based on the level of funding received from ACF at that time. Grant Agreements are distributed and executed prior to the start of the program year. Typically, the first award notice will represent the first quarter of funding made available to the State by the U.S. Administration for Children and Families. The State will not permit an entity to spend multiple allotments simultaneously. The distribution formula will be updated as new poverty data becomes available.

**7.3a Distribution Method: Select the option below that best describes the distribution method the state uses to issue CSBG funds to eligible entities:**

Reimbursement

**7.4. Distribution Timeframe:**

**Does the state plan to make funds available to eligible entities no later than 30 calendar days after OCS distributes the federal award?**  Yes  
 No

**7.4a. Distribution Consistency: If no, describe state procedures to ensure funds are made available to eligible entities consistently and without interruption.**

***Note: Item 7.4 is associated with State Accountability Measure 2Sa and may prepopulate the state's annual report form.***

This actually depends on when funds are made available to the State in relation to the start of the CSBG program year in WV, which is January 1. Once the State receives its Federal award letter, the CSBG Administrator provides a copy to the State fiscal office to set up the Federal award in the state accounting system OASIS, and notifies Eligible Entities of the award amount. West Virginia operates its CSBG program on a calendar year of January 1 through December 31, which means funding is delayed by 3 months. Since CSBG grants are two year grants, this practice does not impede eligible entities from being able to draw down CSBG funds since they will be spending their 4th quarter allocation from October December. Due to the uncertainty of when Federal awards will be received, this method allows the eligible entities to better plan program expenditures and allows for consistent grant start dates from year to year. This process ensures that funds are provided upon request and without interruption. CSBG Eligible Entities apply for funding through an application process during October based on estimated award amounts. Applications are reviewed by the State office during November, and Grant Agreements and 1st quarter award notices are sent out in December for a January 1 start date. To ensure all funds are expended by the program completion date, the State works closely with agencies that are still spending carry over funds after the 12th month of program operations. If needed, the State will approve a formal request from an eligible entity to extend the period of the grant beyond 12 months. Extensions will be granted in 3 month increments until all funds are spent. CEEs are not permitted to spend a new award until all previous year funds are completely spent. If an extension is needed, an agency must request a no cost, time extension in the 11th month of the current program year in order to carry over funds.

**7.5. Distribution of Funds Performance Management Adjustment:**

**Describe the state's strategy for improving grant and/or contract administration procedures under this State Plan as compared to past plans. Any improvements should be based on analysis of past performance, and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the state is not making any improvements, provide further detail.**

***Note: This information is associated with State Accountability Measure 2Sb and may prepopulate the state's annual report form.***

ACSI scores and communication with eligible entities indicate high satisfaction with the states grant administration procedures. The state intends to continue procedures that are in place which consist of requiring eligible entity submission of applications and community action plans in October of each year. Applications are submitted electronically through the State of West Virginia wvOASIS Vendor Self-serve portal. Applications are reviewed by program managers, evaluated, and routed to Agency Level 2 for review before routing to the Governors office for review and approval. Once approved, grants are generated electronically, and grant agreements are completed and routed for signature by the state office and eligible entities. This process is completed prior to the start of the CSBG programmatic year which operates from January 1st through December 31st.

The State is making some adjustments to the use of remainder/discretionary funds under this State Plan as compared to the most recent plan. Adjustments include: 1. Increasing the amount of Training and Technical Assistance grants to CEEs from 12k to 15k. The cost of training and attendance at conferences has continued to increase significantly. 2. The amount of funding for the State Association will increase to fund training and technical assistance events including the state education conference and periodic workshops. Each year, the state makes any unused administrative funds budgeted for the state office available to CEEs for discretionary projects that meet the goals of CSBG to ensure all federal funds are spent. CSBG annual reporting will reflect the actual expenditures. These additional discretionary dollars will be available to CEEs, who in year 2, quarter 2 have met or exceeded expenditure goals, are in good standing from a compliance perspective, and are in need of additional funds for CSBG purposes. These funds will be awarded to CEEs meeting the prescribed criteria who have submitted a complete project proposal and detailed budget. The State maintains flexibility in how additional discretionary funds will be utilized.

**8.1a. Training and Technical Assistance Budget:** The planned budget for the training and technical assistance plan (as indicated in the Remainder/Discretionary Funds table in item 7.9):

<b>Year One</b>	\$280,000	<b>Year Two</b>	\$280,000
-----------------	-----------	-----------------	-----------

**8.1b. Training and Technical Assistance Collaboration:** Describe how the state will collaborate with the state association and other stakeholders in the planning and delivery of training and technical assistance.

The state works collaboratively with the WV Community Action Partnership to analyze an annual training and technical assistance needs survey completed by each CEE. Once the survey results are received, the state office and Association then work together with the Association TTA Committee to determine high priority needs, and prepare a training and technical assistance plan for the upcoming program year. The State and Association work closely together to plan and deliver training to CEEs throughout the year. The Association receives CSBG discretionary funds to facilitate the provision of state wide training. While the T/TA surveys assist in identifying topics for the annual state training conference, it also identifies opportunities for connecting CEEs to existing training resources, and opportunities for more in-depth workshops and webinars that are needed. The State is working with the WV Community Action Partnership to enhance the WV Training Academy learning management system to create content and provide access to consistent and reliable training related to topics such as Tripartite Boards, Basics of ROMA, CSBG Annual Reporting, etc. The WV Community Action Partnership's Training Coordinator will work to create learning content and assign training to CEE staff and board members. The State and State Association will meet monthly to continue working on the provision of timely and necessary T/TA.

**8.2. Organizational Standards Technical Assistance:** Does the state have Technical Assistance Plans (TAPs) in place for all eligible entities with unmet organizational standards, if appropriate?  Yes  No

**Note: 8.2 is associated with State Accountability Measure 6Sb. The state should put a TAP in place to support eligible entities with one or more unmet organizational standards.**

**8.2a. Address Unmet Organizational Standards:** Describe the state's plan to provide T/TA to eligible entities to ensure they address unmet Organizational Standards. The state developed a CSBG Organizational Standards Quick Reference Guide to assist CEEs in knowing how to document compliance with the standards. Any unmet standards noted in a monitoring report will be addressed in the statewide data management system and in monitoring reports that may require a QIP. The state provides feedback and technical assistance during onsite monitoring visits, and works with the State Association to review a list of unmet standards at least annually to determine if there is a trend in unmet standards that would prompt a need for statewide training or technical assistance to address concerns. In FY2025, the State has noted a concern on the increasing number of unmet organizational standards, and intends to work with the State Association to plan an Organizational Standards workshop in year 1, quarter 1 of FY2026.

**8.3. Training and Technical Assistance Organizations:** Indicate the types of organizations through which the State Plans to provide training and/or technical assistance as described in item 8.1, and briefly describe their involvement. *[Check all that apply.]*

**8.4. CSBG-Funded T/TA Performance Management Adjustment:** Describe adjustments the state made to the training and technical assistance plan under this State Plan as compared to past plans. Any adjustment should be based on the state's analysis of past performance, and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the state is not making any adjustments, provide further detail.

**Note: This information is associated with State Accountability Measures 3Sd may pre-populate the state's annual report form**

The State office is making minimal adjustments to this plan compared to the last state plan. Specific trainings are planned based on current trends and needs determined through monitoring, and the state association training and technical assistance survey conducted through the RPIC. The State office is working with the State Association, and R3PIC to coordinate technical assistance with the implementation of our joint TTA Plan. The State Association assesses training needs and works with the State Office to develop and coordinate training and technical assistance. The State Association utilizes a Learning Management System for assigning and tracking on-demand training opportunities.

### SECTION 9 State Linkages and Communication

*Note: This section describes activities that the state may support with CSBG remainder/discretionary funds, described under Section 675C(b)(1) of the CSBG Act. The state may indicate planned use of remainder/discretionary funds for linkage/communication activities in Section 7, State Use of Funds, items 7.9(b) and (c).*

**9.1. State Linkages and Coordination at the State Level:**

Describe the linkages and coordination at the state level that the state intends to create or maintain to ensure increased access to CSBG services to low-income people and communities under this State Plan and avoid duplication of services (as required by the assurance under Section 676(b)(5)).

*Describe additional information as needed.*

*Note: This response will link to the corresponding CSBG assurance, item 14.5. In addition, this item is associated with State Accountability Measure 7Sa and pre-populates the Annual Report, Module 1, Item G.1.*

- State Temporary Assistance for Needy Families (TANF) office
- Head Start State Collaboration offices

- Other

State Energy Office, State Historic Preservation Office, WV Housing Development Fund, WV Community Action Partnership, Inc.

**9.2. State Linkages and Coordination at the Local Level:**

Describe how the state is encouraging partnerships and collaborations at the state level with public and private sector organizations, to assure the effective delivery and coordination of CSBG services to transform low-income communities and avoid duplication of services (as required by assurances under Sections 676(b)(5) - (6))

*Note: This response will link to the corresponding CSBG assurances, items 14.5 and 14.6., and pre-populates the Annual Report, Module 1, Item G.2.*

The State plans to create and maintain partnerships with governmental and other social services, especially antipoverty programs, to assure the effective delivery of and coordination of CSBG services to low income people and communities to avoid duplication of services (as required by assurances under Sections 676(b)(5) and (b)). The State maintains an active partnership with the West Virginia Community Action Partnership. The state office is an active member of the Workforce WV Interagency Collaborative Team, and has encouraged communication between local Workforce Investment Boards and CEEs to engage one another and execute formal MOUs for the provision of employment related training and support services across the state. The State also participates on an HMIS (Homeless Management Information System) steering committee made up of representatives from all four WV Continuums of Care, and a representative from the State CSBG/ESG office to promote collaboration and data sharing. The state office partners with the WV Office of Energy through their annual conference and periodic meetings, and plan to enhance this partnership as we work on the Weatherization Bipartisan Infrastructure Law program and the Energy Rebates Program. The state works closely with the WV Department of Human Resources which administers LIHEAP for WV. The primary focus of that collaboration is centered around collaboration on Weatherization and Repair and Replace through LIHEAP in WV. The primary focus of that collaboration is centered around provision of Weatherization services and emergency repair and replacement of systems heating systems for vulnerable citizens in WV. These program services are provided by WV CEEs. These existing partnerships/linkages require continuous effort to maintain. Maintaining partnerships and collaborations require ongoing work and dedication. These partnerships remain relevant in order to continue the effective delivery and coordination of CSBG services.

**9.3. Eligible Entity Linkages and Coordination**

**9.3a. State Assurance of Eligible Entity Linkages and Coordination:** Describe how the state will assure that eligible entities will partner and collaborate with public and private sector organizations to assure the effective delivery and coordination of CSBG services to low-income people and communities and avoid duplication of services (as required by the assurance under Section 676(b)(5)).

*Note: This response will link to the corresponding CSBG assurance, item 14.5. and pre-populates the Annual Report, Module 1, Item G.3a.*

The State is committed to ensuring eligible entities effectively coordinate and establish connections to deliver CSBG services to low-income individuals and communities without duplication (per Section 676(b)(5) requirements). CSBG entities work in tandem with local service providers to streamline resources and address diverse client needs. They have set up robust information networks and service centers to cater to customer needs comprehensively. By collaborating with public and private partners, eligible entities offer a wide array of services. The State acknowledges the challenge of meeting this commitment and pledges to work with CEEs to enhance delivery methods. WV CEEs leverage statewide resources like the WV 2.1.1

referral system and regional networks to avoid redundancy. WV CEEs include a complete list of partners in their community action plans and leverage non-CSBG funds to address a full range of needs. The state network, through initiatives like the LITT Mobile App, is expanding service access for low-income individuals by enabling remote enrollment in programs. While efforts are made to streamline processes across state assistance programs, collaboration remains challenging due to varied data systems and procurement regulations. The CSBG State Office aims to facilitate coordination among state agencies and enhance data sharing to overcome these obstacles. Continuous efforts are made to update and manage information on available resources for low-income individuals, ensuring easy accessibility through the LITT Mobile App.

**9.3b State Assurance of Eligible Entity Linkages to Fill Service Gaps:**

**Describe how the eligible entities will develop linkages to fill identified gaps in the services, through the provision of information, referrals, case management, and follow-up consultations, according to the assurance under Section 676(b)(3)(B) of the CSBG Act.**

**Note: This response will link to the corresponding CSBG assurance, item 14.3b., and pre-populates the Annual Report, Module 1, Item G.3b.**

The eligible entities will establish connections to address identified service gaps by offering information, referrals, case management, and follow-up consultations as mandated by Section 676(b)(3)(B) of the CSBG Act. These interconnections, developed within the operational capacity of CEE programs, facilitate access for individuals and families to a range of local services and programs serving their needs. WV CEEs will submit a comprehensive CSBG Application detailing programs aiding low-income individuals and outlining follow-up procedures. CSBG funds provide support that enables CSBG eligible entities to operate an array of anti poverty and social service programs. Coordination of public and private funding takes place at the local level in a variety of ways suited to the individual community and available resources. CSBG eligible entity staff and/or administrators meet with other providers in the service area to determine how best to not duplicate services while providing the services needed to meet the emergency needs of low income persons and establishing/improving programs which assist low income individuals and families to transition out of poverty.

**9.4. Workforce Innovation and Opportunity Act (WIOA) Employment and Training Activities:**

**Does the state intend to include CSBG employment and training activities as part of a WIOA Combined State Plan, as allowed under the Workforce Innovation and Opportunity Act (as required by the assurance under Section 676(b)(5) of the CSBG Act)?**  Yes

No

**Note: This response will link to the corresponding CSBG assurance, item 14.5.**

**9.4a. WIOA Combined Plan: If the state selected "yes" under item 9.4, provide the CSBG-specific information included in the state's WIOA Combined Plan. This information includes a description of how the state and the eligible entities will coordinate the provision of employment and training activities through statewide and local WIOA workforce development systems. This information may also include examples of innovative employment and training programs and activities conducted by community action agencies or other neighborhood-based organizations as part of a community antipoverty strategy.**

**9.4b. Employment and Training Activities: If the state selected "no" under item 9.4, describe the coordination of employment and training activities, as defined in Section 3 of WIOA, by the state and by eligible entities providing activities through the WIOA system.**

The State plans to continue its partnership with the WIOA office (Workforce WV) for the coordination of employment and training activities, as defined in Section 3 of WIOA, by the State and by eligible entities providing activities through the WIOA system. Under the WIOA program, WV law established an Interagency Collaborative Team (ICT) comprised of the mandated partners under WIOA. The State will continue participating in the Workforce ICT. Examples of other state partners participating in the ICT include the Bureau of Senior Services, the Division of Rehabilitation Services, Community Colleges, WV Department of Commerce, Education, etc. The State CSBG Office regularly shares updates on how CSBG programs can collaborate to enhance job opportunities and training initiatives in West Virginia. The Workforce ICT convenes every last Thursday monthly. The State office will persist in engaging partners, informing about CSBG initiatives, and disseminating relevant information to the CEE network. The State aims to integrate the WV Community Action Partnership and CEE representatives into the regular ICT meetings. Moreover, it will advocate for CEEs to play a more involved role in local WIOA offices. Additionally, the Workforce ICT conducts small group meetings on demand in addition to the monthly gatherings held on the last Thursday of each month.

**9.5. Emergency Energy Crisis Intervention:**

**Describe how the state will assure, where appropriate, that emergency energy crisis intervention programs under Title XXVI (relating to Low-Income Home Energy Assistance) are conducted in each community in the state, as required by the assurance under Section 676(b)(6) of the CSBG Act).**

**Note: This response will link to the corresponding CSBG assurance, item 14.6.**

The State will assure, where appropriate, that emergency energy crisis intervention programs under title XXVI (relating to Low Income Home Energy Assistance) are conducted in each community in the State, as required by the assurance under Section 676(b)(6) of the CSBG Act). The State CSBG office is not the direct recipient of LIHEAP funding. The WV Department of Human Resources (DoHS) Low Income Home Energy Assistance Program (LIHEAP) allows West Virginia Weatherization Assistance Program Subrecipients the administration of an Energy Crisis Intervention Program (ECIP). The ECIP program is designed to aid households in need of emergency heat due to non existent, non operable, severely malfunctioning, unsafe, or severely inadequate heat during the winter months, from November 1 to March 15. The State office works with the WVDoHS to administer an additional program funded by LIHEAP called the Repair and Replacement Program, which is designed to respond to households with no heat, as well as situations where cooling would be a necessity for elderly, small children, and individuals with health related issues. The program is administered by CEEs in WV since the WV Department of Human Resources does not have a provider network capable of administering these services. The program has been very successful since 2015 and is provided by 14 of 15 WV CEEs. The program is funded at around \$6.3 million for FFY2025

**9.6. Faith-based Organizations, Charitable Groups, Community Organizations:**

**Describe how the state will assure local eligible entities will coordinate and form partnerships with other organizations, including faith-based organizations, charitable groups, and community organizations, according to the state's assurance under Section 676(b)(9) of the CSBG Act.**

**Note: this response will link to the corresponding assurance, item 14.9.**

The State will assure local eligible entities will coordinate and form partnerships with other organizations, including faith based organizations, charitable groups, and community organizations, according to the States assurance under Section 676(b)(9) of the CSBG Act. CEEs are required to submit an application that includes a Community Action Plan. The plan must include information on how the CEE coordinates programs with and forms partnerships with other organizations serving low income residents of the communities, including religious organizations, charitable groups, and community organizations. The State reviews MOUs/partnership agreements during regular on site monitoring and review of the CSBG Organizational Standards. The State reviews the totals of partnership reported on the annual CSBG Report. Additionally, these partnerships are required by the CSBG Organizational Standards which serve as a continuous reminder of the requirement, which must be documented by CEEs.

**9.7. Coordination of Eligible Entity 90 Percent Funds with Public/Private Resources:**

**Describe how the eligible entities will coordinate CSBG 90 percent funds with other public and private resources, according to the assurance under Section 676(b)(3)(C) of the CSBG Act.**

**Note: this response will link to the corresponding assurance, item 14.3c.**

The eligible entities will coordinate CSBG 90 percent funds with other public and private resources, according to the assurance under Section 676(b)(3)(C) of the CSBG Act. CSBG eligible entities operate within a network of local service providers to reduce duplication of effort and to

coordinate resources to address various client circumstances. CSBG eligible entities have developed extensive information and referral networks and/or one stop service centers to meet the many needs of the clients seeking services. Through linkages established within the service area individuals and families can be connected to an array of local programs and services to meet the needs of family members. Through the submission of annual Community Action Plans, each CEE identifies all additional funding sources planned to be utilized in the delivery of specific agency programs. The State office strives to encourage leveraging of additional funding sources to fill the gaps in services that are needed by low income individuals and families in our State.

**9.8. Coordination among Eligible Entities and State Community Action Association:  
Describe state activities for supporting coordination among the eligible entities and the state community action association.**

*Note: This information will pre-populate the Annual Report, Module 1, Item G.5.*

The State supports coordination among the eligible entities and the State Community Action Association by funding the Association with CSBG discretionary funding. The funding provides support for Community Action initiatives, training, software support, and administration. The association is the lead agency for ROMA training in the state. The State office provides program updates for all association board meetings. Coordination efforts include the support and management of the state's Learning Management System, ROMA NCRT/NCRI/NCRA coordination, and requirements of the state's data management software for CEEs CSBG and Weatherization. The State also supports the State Association conference each year through collaboration and financial support.

**9.9. Communication with Eligible Entities and the State Community Action Association:

**9.10. Feedback to Eligible Entities and State Community Action Association:**  
Describe how the state will provide information to local entities and state community action associations regarding performance on state accountability measures.

***Note: This information is associated with State Accountability Measure 5S(iii), and will pre-populate the Annual Report, Module 1, Item G.6***

The CSBG Program Manager maintains an operational calendar with report deadlines and will work with fiscal staff to ensure the reports are submitted in a timely manner. To permit the tracking of expenditures adequate to ensure funds have been used appropriately under the block grant, as required by Block Grant regulations applicable to CSBG at 45 CFR 96361(a), the State conducts bi-annual Comprehensive Monitoring of eligible entities during which reported eligible entity expenditures are tested for allowability and internal controls and financial management systems are assessed.</p>
<p><b>10.12. Single Audit Management Decisions:</b> Describe state procedures for issuing management decisions for eligible entity single audits, as required by Block Grant regulations applicable to CSBG at 45 CFR 75.521.</p>
<p><i>Note: This information is associated with State Accountability Measure 4Sd.</i></p>
<p>Standard Review Procedures for Subrecipients Subject to Single Audit Act Subrecipient audits are due within the earlier of 30 calendar days after the issuance of the audit report or 9 months after the subrecipients fiscal year end. While there is no Federal regulatory deadline for the review of Single Audits if no management decision is required (see Management Decisions) this review process should generally be completed within 60 days of receipt of the audit, barring any unforeseen or unusual circumstances. The review process outlined below should be followed for all subrecipients that are subject to the Single Audit Act. I. Retrieving Single Audits from the Federal Audit Clearinghouse. The Federal Audit Clearinghouse (FAC) is the official repository for all audits conducted under the Single Audit Act. The website for the FAC is currently here: <a href="https://harvester.census.gov/facdissem/Main.aspx">https://harvester.census.gov/facdissem/Main.aspx</a> The Federal Audit Clearinghouse should be checked at least monthly for any new subrecipient audit submissions. The audit review log (attachment A) lists due dates of when audit reports should be uploaded to the FAC based on the subrecipients fiscal year. State staff will utilize the Subrecipient Audit Review Checklist when reviewing audits. The checklist is designed to test the completeness and correctness of the audit package, including the qualifications of the CPA firm, and required reporting to the Federal Audit Clearinghouse. Management decisions are required when: (a) A subrecipients audit discloses a federal award finding related to a program that the State Office administers. (b) A subrecipients audit discloses a federal award finding not related to a program that the State Office administers but the finding is related to a compliance requirement of one of the State Office's programs. To</p>

determine whether a federal award finding is related to a compliance requirement of one of the State Office's programs, please see Appendix XI to Part 200 Compliance Supplement, which lists compliance requirements by CFDA numbers. Management decisions may be issued at the State Office's discretion when: (a) A subrecipients audit discloses a Federal award finding not related to a program that the State Office administers and the finding is not related to a compliance requirement of one of the State Office's programs (b) A subrecipients audit disclosed a financial statement finding if the State Office issues a management decision when it is not required, the management decision must clearly include a justification as to why a management decision is being issued. Generally, the State Office will issue a management decision when not required only if the audit finding has cross-cutting effects and has the potential to affect the State Office's programs. The State Office may request additional information and documentation from a subrecipient regarding audit findings before determining if a management decision will be issued and the type of management decision to be issued. If a management decision is to be issued, it must contain the following as applicable: (a) Reference numbers the subrecipients auditor assigned to each audit finding (b) Whether or not the audit finding is sustained (c) The reason(s) for the decision (d) Expected subrecipient follow-up i. Repayment of disallowed costs, if applicable ii. Making financial adjustments, if applicable iii. Other actions to be taken (e) Timetable for follow-up if corrective actions have not been completed (f) Description of the appeals process available to the subrecipient See attachment C for a template form letter to be used when issuing management decisions. All management decisions will be signed by the State Office's director. Management decisions must be issued within 6 months of the acceptance of the subrecipients audit report by the FAC.

**10.13. Assurance on Federal Investigations:**

The state will "permit and cooperate with Federal investigations undertaken in accordance with Section 678D" of the CSBG Act, as required by the assurance under Section 676(b)(7) of the CSBG Act.  Yes  No

**Note: This response will link with the corresponding assurance, Item 14.7.**

**10.13a. Federal Investigations Policies:** Are state procedures for permitting and cooperating with federal investigations included in the state monitoring policies attached under 10.2?  Yes  No

**10.13b. Closing Findings Procedures:** If no, describe state procedures for permitting and cooperating with federal investigations.

CSBG Programmatic Assurances including "To permit and cooperate with federal investigations undertaken in accordance with section 678D of the Act; [676(b)(7)]" are included in the CSBG Subgrant Agreement with CEEs.

**10.14. Monitoring Procedures Performance Management Adjustment:**

Describe any adjustments the state made to monitoring procedures in this State Plan as compared to past plans? Any adjustment should be based on the state's analysis of past performance, and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the state is not making any adjustments, provide further detail.

**Note: This item is associated with State Accountability Measure 4Sb and may pre-populate the state's annual report form.**

West Virginia was monitored by OCS in November 2023. The monitoring identified three opportunities for improvement in programmatic operations related to the annual report, one opportunity for improvement in administrative operations related to quality improvement plans for subrecipients, and two issues of noncompliance which were resolved by implementing policies and procedures on "Eligible Entity Designation and Redesignation" and a policy on the "Use of Funds for Construction and Waiver Request Procedures". The State office has modified the format of CSBG monitoring reports to align with the format of the federal monitoring report received from the Office of Community Services. The modified format provides more context of the monitoring and more detailed information that can be used by the Subrecipient to make improvements. The CSBG Monitoring policies were expanded to clarify and include specific procedures for corrective action and termination. Additional procedures were implemented in FY2025 on CEE Designation and Re-designation. Despite the clarification of policy and procedure, there were no significant changes in the way monitoring has been performed during the last program period other than an increased focus on the intent of the purposes of the CSBG Act. The State received positive feedback on monitoring activities in the recent ACSI survey of WV CEEs, and intends to continue implementation with an emphasis on quality improvement and communication of opportunities for improvement.

<b>12.1a. Income Eligibility Policy and Procedures: Describe any state policy and/or procedures for income eligibility, such as treatment of income and family/household composition.</b>	
<p>Section 673(2) of the CSBG Act (42 USC 9902(2)) specifies that the Federal Poverty Line shall be used as a criterion of eligibility for the CSBG and that the state may revise the poverty line to not exceed 125 percent of the official poverty line. As authorized by the CARES Act, the WVDED revised the income limit for eligibility ceiling from 125 to 200 percent of the federal poverty level for CSBG services, including services provided with the states regular CSBG appropriations since that time. The State of West Virginia authorizes eligible entities to utilize 200 percent of the federal poverty guideline for CSBG services so long as it is authorized by the federal award. In the event the federal award does not allow for using 200 percent of the poverty guidelines, eligible entities will revert back to the CSBG Act guidelines of 125 percent. Eligible entities should use the most current HHS poverty guidelines when assessing income eligibility. The current guidelines are published in the Federal Register and are available on the HHS website at www.hhs.gov. The most recent guidelines are also used for calculation of household percent of poverty in the states data management system. The guidelines are calculated on a sliding scale based on the number of persons in a clients family. To calculate 200% of the federal poverty line, use the amount stated in the poverty guidelines relating to the number of persons in the clients household and multiply that number by 2. An eligible entity may, consistent with its most recent community needs assessment, give priority in providing CSBG services/benefits to clients of lower income levels within the CSBG income eligibility limit established by the state. WV CSBG Policy on Determining Customer Eligibility is attached for reference.</p>	
<b>12.2. Income Eligibility for General/Short-Term Services:</b> <b>Describe how the state ensures eligible entities generally verify income eligibility for those services with limited in-take procedures (where individual income verification is not possible or practical),An example of these services is emergency food assistance.</b>	
The State has not yet addressed this in policy but plans to revise the WV CSBG Policy on Determining Customer Eligibility to address it in FY2026 and implement in FY2027.	
<b>12.3. Community-targeted Services: Describe how the state ensures eligible entities' services target and benefit low-income communities for services that provide a community-wide benefit (e.g., development of community assets/facilities, building partnerships with other organizations).</b>	
The State does not plan to address this in policy

<b>SECTION 13</b> <b>Results Oriented Management and Accountability (ROMA) System</b>	
<b>13.1. Performance Measurement System:</b> Identify the performance measurement system that the state and all eligible entities use, as required by Section 678E(a) of the CSBG Act and the assurance under Section 676(b)(12) of the CSBG Act.

<b>13.1a. ROMA Description: If ROMA was chosen in Item 13.1, describe the state's written policies, procedures, or guidance documents on ROMA.</b>	
The Performance Management Framework includes: 1) Organizational standards for local CSBG eligible entities; 2) Accountability measures for states and OCS; 3) Results Oriented Management and Accountability (Next Generation); and 4) The CSBG Annual Report, which includes an updated and refined set of CSBG outcome measures. These elements are designed to increase accountability across all three levels of the network (Federal, State and local) and to enable program administrators at all levels to make better program decisions based on data. WV CEEs certify that all activities carried out with funds provided under the CSBG Grant Agreement shall report on the national Results Oriented Management and Accountability (ROMA) goals and national performance indicators. The ROMA System is woven into the entire design of the CSBG program in WV; from submission of annual grant applications by CEEs, to consistent data entry, documentation of services and outcomes, and regular reporting along the way. The State is partnering with the WV Community Action Partnership to lead the WV ROMA Task Force designated to guide the direction of ROMA implementation among WV CSBG eligible entities (CEEs). The Task Force is made up of Nationally Certified ROMA Trainers (NCRTs) and Nationally Certified ROMA Implementers (NCRIs), and ROMA Advocates (NCRAs). Currently, 14 of 15 CEEs are represented on the Task Force. The State office has 1 NCRA and the Association has 1 NCRA that work together to coordinate the activities and training of the WV ROMA Task Force.

The State supports the eligible entities in using the ROMA system by having 1 certified ROMA advocate on staff to provide technical assistance as needed and guide policy making decisions to align with ROMA principles. The State plans to add a Nationally Certified ROMA Implementer or Trainer in 2027. The State utilizes a portion of the 5% CSBG discretionary funding to provide a statewide data management system to the network that has been designed to function within the ROMA system; including the use of Logic Models, Scales and Matrices, tracking of services and results, planning and evaluation tools. The State provides regular training on the use of the data management system. The State has also established a ROMA task force in cooperation with the WV Community Action Partnership that focuses on improving the ROMA system in the state for all CEEs and guiding state policy for promoting results orientation.	
<b>13.4. Eligible Entity Use of Data:</b> Describe how is the state plan to validate the eligible entities that are using data to improve service delivery?	
<i><b>Note: This response will also link to the corresponding assurance, Item 14.12.</b></i>	
As part of the CSBG Application for funding, a Community Action Plan is submitted that requires CEEs to report on their programs and where improvements need to be made. This is in coordination with submission of ROMA Logic Models that provide data which is critical to a plan for improvement. The State mandates the use of an electronic statewide data management and reporting system that is a critical resource of data. The system is equipped to produce regular grant reporting as well as ad hoc reporting of any data point entered the system. The State Association provided training through the National Community Action Partnership on Data Capacity Building to promote a data culture focused on quality improvement. The State has implemented additional changes to the state data management system that will allow for more precise and specific feedback on individual CSBG Annual Report submissions including the comparison to prior year data similar to the SmartForms as well as show warnings and errors that will produce data cleaning prior to submission. Our greatest challenge is unduplicating customer data resulting from multiple data systems being required by multiple funding sources.	
Community Action Plans and Needs Assessments	
<b>13.5. Community Action Plan: Describe how the state will secure a Community Action Plan from each eligible entity, as a condition of receipt of</b>	

**CSBG funding by each entity, as required by Section 676(b)(11) of the CSBG Act.**

***Note: this response will link to the corresponding assurance, Item 14.11.***

The State will receive a Community Action Plan from each eligible entity as required by Section 676(b)(11) of the CSBG Act. A Community Action Plan is required as part of the annual application for funding. The State has developed a template that CEEs use to present their plan. To satisfy this requirement, the State requires detailed information on each eligible entity program/initiative that meets the service delivery goals of the entity and the Community Services Block Grant assurances. CEEs are required to complete the following outline for each program/initiative. 1. Agency Program Name: A. Primary Funding: Includes the primary source of funds dedicated to the program and the amount. B. CSBG funding: Includes the amount of new grant year CSBG funds, carryover CSBG funds, and CARES Act funds allocated to the program. C. Additional funding: Includes any additional funding sources dedicated to the program and the amount allocated for each source. D. Projected # of Participants: Includes the number of participants expected to enroll in the program. E. CSBG Service Category: Employment | Education Income Mgt. Health Housing | Linkages Emergency Services Nutrition | Self Sufficiency | Other F. Demographic Category: Youth | Senior | N/A G. Counties Served: Includes each county served by this program. H. Eligibility Requirements: Includes the eligibility requirements for participants to receive services? (Example: Household income required to be less than 125% of poverty; household cannot receive greater than \$100 in emergency assistance per year, etc.) I. Narrative response to determine if the program addresses a need identified in the entity's most recent Community Assessment? Includes why the agency is providing this program to the community. If the need was not identified in the recent Community Assessment, an explanation is required. J. Includes the goals of the program/initiative? If this is a recurring program, explains how the goals of the previous program year were or were not met. K. If the goals were not met, the plan includes the entity's plans to ensure that goals are met for the plan year? L. Includes any organizations the entity is partnering with to provide the services and includes the primary focus of the partnership and whether a formal agreement exists. Each Individual/Family level program also requires the completion of a ROMA Logic Model. These items are submitted by each CEE and reviewed by the State Office

**13.6. Community Needs Assessment:**

**Describe how the State will assure that each eligible entity includes a community needs assessment for the community served (which may be coordinated with community needs assessments conducted by other programs) in each entity's Community Action Plan, as required by Section 676(b)(11) of the CSBG Act.**

***Note: this response will link to the corresponding assurance, Item 14.11.***

The State will assure that each eligible entity includes a community needs assessment for the community served (which may be coordinated with community needs assessments conducted by other programs) in each entity's Community Action Plan, as required by Section 676(b)(11) of the CSBG Act. The State requires the submission of a Certification of Needs Assessment form as part of the application for CSBG funding to ensure that the assessment has been completed as well as the method of doing so. The full assessment is reviewed during regular comprehensive monitoring of the CEE and through review of the CSBG Organizational Standards.

The State reviews eligible entities' annual grant applications to assure that support activities are designed to meet the requirement outlined in section 676(b)(1)(C) of the CSBG Act, which includes making more effective use of, and to coordinate with, other programs related to the purposes of this

subtitle (including state welfare reform efforts). Each CEE provides a unique and individualized approach to using CSBG funds for this purpose.

## State Use of Discretionary Funds

**14.2 676(b)(2) Describe "how the state intends to use discretionary funds made available from the remainder of the grant or allotment described in section 675C(b) in accordance with this subtitle, including a description of how the state will support innovative community and neighborhood-based initiatives related to the purposes of this subtitle."**

## Eligible Entity Service Delivery, Coordination, and Innovation

**14.3. 676(b)(3) "Based on information provided by eligible entities in the state, a description of..."**

**14.3a. 676(b)(3)(A) Describe "the service delivery system, for services provided or coordinated with funds made available through grants made under 675C(a), targeted to low-income individuals and families in communities within the state;**

WV CEEs are required by the State to utilize a central data management system in which applicants are verified and unduplicated. The system allows customers of community action to be transferred seamlessly from CEE to CEE without interruption to services and determine eligibility for each agency program based on measurable criteria. The data management system provides the tools and resources to deliver services across the entire state and also serves as a powerful referral tool for resources outside of community action when needed. Each eligible entity in West Virginia describes their specific approach to service delivery in their annual CSBG application through the completion of a comprehensive Community Action Plan along with supporting ROMA logic models. Each entity has the ability to tailor their service delivery system to the needs of the local community.

## Eligible Entity Linkages - Approach to Filling Service Gaps

**14.3b. 676(b)(3)(B) Describe "how linkages will be developed to fill identified gaps in the services, through the provision of information, referrals, case management, and followup consultations."**

***Note: The state describes this assurance in the state linkages and communication section, item 9.3b.***

The eligible entities will establish connections to address identified service gaps by offering information, referrals, case management, and follow-up consultations as mandated by Section 676(b)(3)(B) of the CSBG Act. These interconnections, developed within the operational capacity of CEE programs, facilitate access for individuals and families to a range of local services and programs serving their needs. WV CEEs will submit a comprehensive CSBG Application detailing programs aiding low-income individuals and outlining follow-up procedures. CSBG funds provide support that enables CSBG eligible entities to operate an array of anti poverty and social service programs. Coordination of public and private funding takes place at the local level in a variety of ways suited to the individual community and available resources. CSBG eligible entity staff and/or administrators meet with other providers in the service area to determine how best to not duplicate services while providing the services needed to meet the emergency needs of low income persons and establishing/improving programs which assist low income individuals and families to transition out of poverty.

## Coordination of Eligible Entity Allocation 90 Percent Funds with Public/Private Resources

**14.3c. 676(b)(3)(C) Describe how funds made available through grants made under 675C(a) will be coordinated with other public and private resources."**

***Note: The state describes this assurance in the state linkages and communication section, item 9.7.***

The eligible entities will coordinate CSBG 90 percent funds with other public and private resources, according to the assurance under Section 676(b)(3)(C) of the CSBG Act. CSBG eligible entities operate within a network of local service providers to reduce duplication of effort and to coordinate resources to address various client circumstances. CSBG eligible entities have developed extensive information and referral networks and/or one stop service centers to meet the many needs of the clients seeking services. Through linkages established within the service area individuals and families can be connected to an array of local programs and services to meet the needs of family members. Through the submission of annual Community Action Plans, each CEE identifies all additional funding sources planned to be utilized in the delivery of specific agency programs. The State office strives to encourage leveraging of additional funding sources to fill the gaps in services that are needed by low income individuals and families in our State.

## Eligible Entity Innovative Community and Neighborhood Initiatives, Including Fatherhood/Parental Responsibility

**14.3d. 676(b)(3)(D) Describe "how the local entity will use the funds [made available under Section 675C(a)] to support innovative community and neighborhood-based initiatives related to the purposes of this subtitle, which may include fatherhood initiatives and other initiatives with the goal of strengthening families and encouraging parenting."**

***Note: The description above is about eligible entity use of 90 percent funds to support these initiatives. States may also support these types of activities at the local level using State remainder/discretionary funds, allowable under Section 675C(b)(1)(F). In this State Plan, the State indicates funds allocated for these activities under item 7.9(f).***

The State reviews eligible entities annual grant applications to assure that the local entity will use the funds [made available under 675C(a)] to support innovative community and neighborhood based initiatives related to the purposes of this subtitle. Where entities are not providing direct services, they are to explain how they partner with other providers in the community to meet the need through programs "which may include fatherhood initiatives and other initiatives with the goal of strengthening families and encouraging parenting. Each CEE provides a unique and individualized approach to using CSBG funds for this purpose. Specific programs provided by CEEs in the state that have a goal of strengthening families and encouraging parenting include: 1 CEE provides the Birth to Three program 2 CEEs provide parenting support programs 4 CEEs provide Right from the Start program 6 CEEs provide Early Head Start program 9 CEEs provide Head Start, which includes a specific focus area on fatherhood/parental responsibility. ## 15.2. CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645 (a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

### Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

3. For grantees other than individuals, Alternate I applies.

4. For grantees who are individuals, Alternate II applies.

5. Workplaces under grants, for grantees other than individuals, need to be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or state highway department while in operation, state employees in each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

**Controlled substance** means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);.

**Conviction** means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the federal or state criminal drug statutes;

**Criminal drug statute** means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

**Employee** means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant

and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

### **Certification Regarding Drug-Free Workplace Requirements**

#### **Alternate I. (Grantees Other Than Individuals)**

The grantee certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an ongoing drug-free awareness program to inform employees about--

(1) The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will - -

(1) Abide by the terms of the statement; and (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within 10 calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted - -

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, state, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

Check if there are workplaces on file that are not identified here.

**Alternate II. (Grantees Who Are Individuals)**

(a) The grantee certifies that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant;

(b) If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, he or she will report the conviction, in writing, within 10 calendar days of the conviction, to every grant officer or other designee, unless the Federal agency designates a central point for the receipt of such notices. When notice is made to such a central point, it shall include the identification number(s) of each affected grant.
